

NECA's eSafetyLine Safety Expert System Software is an effective low cost solution for addressing occupational safety and health. The online software provides electrical contractors with compliance material, training material, online records and reports on demand.

## eSafetyLine

### NECA's eSafetyLine Safety Expert System includes:

- ▶ **Model Safety Manual** - comprehensive editable company safety manual
- ▶ **Library of Compliance** - written programs and policies, permits, inspection checklists and more
- ▶ **Training Library** - targets specific OSHA regulations with safety talks, quizzes and activities
- ▶ **Recordkeeping** - maintains Injury/Illness (OSHA 300, 300A, 301), Employee Training, and Event (tool issuance, vehicle inspections, etc.) records
- ▶ **Monthly News/Features Section** - provides monthly tips on a targeted topic and news updates from OSHA
- ▶ **Industry Practices Database** - searchable database of various model documents.
- ▶ **Safety Talk Calendar** - four new safety talks each month which correspond with the monthly topic
- ▶ **Free Webinars** - quarterly webinars addressing key OSHA topics and methods for compliance using eSafetyLine

### At Your Fingertips Anytime, Anywhere

This robust online safety program makes company safety records available to you anytime, anywhere. By using a laptop or PDA, you will be able to access essential program documents and employee safety records from any job-site.

### Electrical eSafetyLine is:

- ▶ **Easy to Use** - Overwhelming compliance requirements are broken down into manageable safety modules; each with step-by-step instructions.
- ▶ **Easy to Access** - Documents are editable Microsoft Word documents, and reports can be generated as PDF files or spreadsheets which can be saved on your hard drive and retained indefinitely.
- ▶ **Current & Continually Updated** - Online content is constantly being reviewed and updated responding to changes in regulations, interpretations and enforcement policies. Users have immediate access to enhancements in features and functionality.
- ▶ **Easy to Delegate** - The easy-to-use interface allows administrative duties to be delegated to your office staff and assistants. A toll-free help-line is available to answer questions on both the application and content.
- ▶ **Cost Effective** - The eSafetyLine software is available to members for only \$150 per year. Special programs offering enhanced support and greater savings are available.
- ▶ **Easy to Order** - Order online at [necanet.org](http://necanet.org).
